

ARTIFICIAL BAITS AND CARP HOOKS

Totally realistic artificial baits that all coarse anglers should carry. These baits enable the angler to produce critically balanced or popped up bait presentations with ease. All the baits can be flavoured and should not be confused with other inferior imitation baits available.

ARTIFICIAL BUOYANT SWEET-CORN/MAIZE

Totally new floating artificial sweet corn has been developed to overcome the problems with some of the other artificial sweet corn on the market today. This Sweet corn has extreme buoyancy. Due to the cellular nature simply by piecing the Sweet corn with a baiting needle and squeezing whilst in a flavouring the Sweet corn will take in a considerable amount of flavour. There are 4 sizes (8 pieces in total, 2 of each size) of sweet corn in each pack allowing the angler to present a totally natural looking Trade pack 10 packs bait Sweet corn is off course Non Toxic. Supplied in trade packs of 10 pack.

ARTIFICIAL BREAD

Artificial bread that is perfect for floating crust or popped up bait presentations. Unlike other artificial breads available this looks and feels like bread! The new artificial bread has accounted for river and Stillwater Chub, Carp and Mullet. The artificial bread is soft to the touch, will float all day, stays on the hook and most importantly fools the fish. The bread will take a flavour due to the sponge like consistency of the product. Supplied in trade packs of 10 pack.

FLOATING ARTIFICIAL DOG MIXER BISCUIT

At last, an end to that tedious drilling or gluing of mixer biscuits for floater fishing. This incredibly realistic mixer biscuit is easy to hook, will float all day and won't fall off your hook. Made of non-toxic material, the new moulding method developed for this product has produced an almost identical artificial dog mixer biscuit. 4 sizes of biscuit are included in each pack of 8 biscuits to match the size of biscuit the carp are feeding on. Supplied in trade packs of 10 pack.

ARTIFICIAL BUOYANT TIGER NUTS

Produced using the same new moulding method, this artificial tiger nut is perfect for producing popped up or neutrally buoyant baits. Used in conjunction with real tiger nuts it will help produce perfectly presented baits to fool even the most wary of fish. 2 sizes of tiger nut are included in each pack of 4 nuts. Supplied in trade packs of 10 pack.

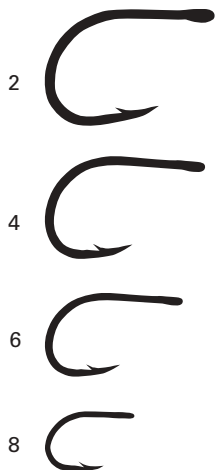

FPOINT

A new range of Carp hooks designed to offer the angler super sharp and strong points combined with excellent hook shapes, providing great hook holds and less lost fish. The name F Point is derived from the final step in the hook production. At this stage the hook has a point that most of the competitors would be proud of. We then use a carefully formulated chemical bath to further polish or flash the point on the hook, hence F Point. The result is a super smooth, ultra strong and reliable point.

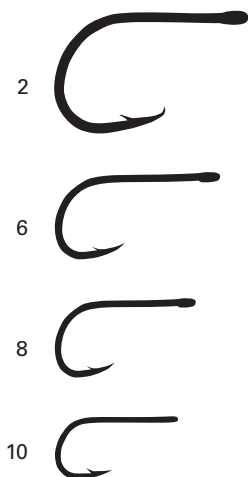

F1

A Versatile hook for bottom fished or popped up baits, stiff or soft rigs. The hook has an incredible strength to weight ratio, making it ideal for open water or snaggy swims. Sizes 2 –10, Black Nickel finish.

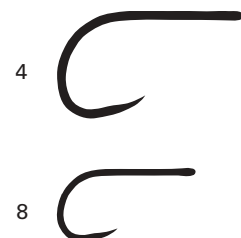

F2

A longer shank version of the F1 making it ideal for D rigs and other Anti – Ejection rigs. Sizes 2 – 10, Finish Black Nickel.

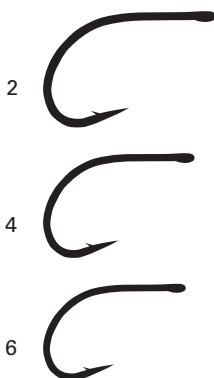

F3

A barbless version of the F2. Sizes 4 – 8, Finish Black Nickel.

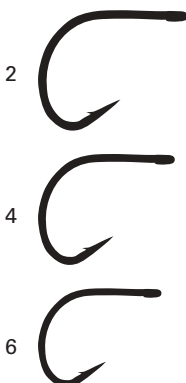

F4

The perfect Euro hook! Hooks and holds in any condition, at distance or in snags. Will work with bottom or popped up baits. When targeting big fish the strength and sharpness of this hook gets you results. Sizes 2 – 6, Finish Green Nickel.

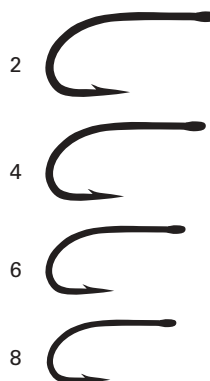

F5

Designed for the big fish angler who knows the mechanics of rigs. The hooking potential of this hook is second to none. The offset bend and point with the near direct angle to the eye, makes it a superb self-hooker when used on both bottom or popped up baits. Sizes 2 – 6, Finish green nickel.

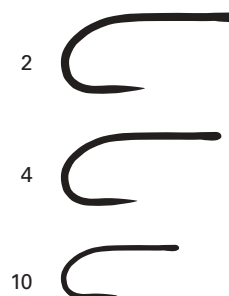

F6

Simplicity itself is the beauty of this hook . The straight shank and point allows experimentation with rigs without compromising the hooking potential. A great hook for soft baits. Sizes2 – 10, Finish Black Nickel.

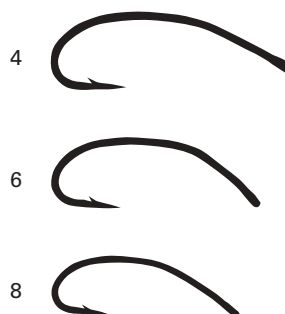

F7

A barbless version of the F6. Sizes2 – 10, Finish Black Nickel.

F8

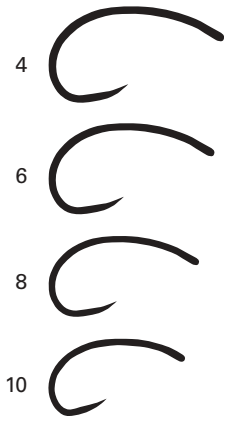

huge step forwards from the old bent hook design. This superb self-hooker has a sweeping bend to the shank and a very stiff wire construction. This helps reduce any fish damage and gives amazing hook holds. The hook is perfect for line -aligner rigs Sizes 4 – 8 Finish Black Nickel.

F9 NYMPH HOOK

NEW
Newest development in Carp hooks. Ideal for stiff monofilament hair rig on a stiff braid. Irresistible.

BARBEL HOOK

An extremely powerful, yet lightweight hook. Forged bend, in-turned needlepoint of outstanding strength and sharpness. The hooks are finished in a super slippery finish, which gives improved hook penetration and fish holding power. Sizes 2 – 10
